JURISDICTION AND VENUE

4. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. §§ 1331 and 1338(a) because this action arises under the Patent Laws of the United States, 35 U.S.C. § 271 *et seq.*

5. This Court has personal jurisdiction over Defendant because it is incorporated in Delaware and has purposely availed itself of the privileges and benefits of the laws of the State of Delaware.

6. Upon information and belief, Defendant has committed patent infringement in the State of Delaware. Defendant solicits customers in the State of Delaware. Defendant has many paying customers who are residents of the State of Delaware and who each use Defendant's products and services in the State of Delaware.

7. Venue is proper in this judicial district as to Defendant pursuant to 28 U.S.C. §§ 1391 and 1400(b).

THE PATENTS-IN SUIT

8. Paragraphs 1-7 are incorporated by reference as if fully set forth herein.

9. On September 11, 2001, the '350 Patent entitled "System and Method For Structured News Release Generation and Distribution" was duly and lawfully issued by the United States Patent and Trademark Office ("PTO"). The '350 Patent is attached hereto as Exhibit A.

10. On March 26, 2002, the '390 Patent entitled "System and Method For Structured News Release Generation and Distribution" was duly and lawfully issued by the PTO. The '390 Patent is attached hereto as Exhibit B.

11. Plaintiff is the exclusive licensee of the Patents-In-Suit and possesses all rights of recovery under the Patents-In-Suit, including the right to sue and recover all damages for infringement thereof, including past infringement.

COUNT I – PATENT INFRINGEMENT

12. Paragraphs 1-11 are incorporated by reference as if fully restated herein.

13. Upon information and belief and in violation of 35 U.S.C. § 271(a), Defendant has infringed and continues to infringe at least one or more claims of the '350 Patent by making, using, providing, offering to sell, and selling (directly or through intermediaries), in this district and elsewhere in the United States, a method for structured generation of a news release, as described via their websites <http://www.abnnewswire.com> and <http://www.abnnewswire.net>.

14. More specifically, for purposes of the '350 Patent the ABN Newswire service receives specified content of each of a plurality of pre-determined sections of the news release, the predetermined sections and their ordering determining in part a desired format for the news release. The ABN Newswire service allows for the creation of electronic news releases and electronic press kits that are formatted to have a plurality of sections such as Header, Body, Contacts, About Company, Links, and the like. The ABN Newswire service stores, in a digital storage medium, the content specified for each of the sections. Generally, the ABN Newswire service creates and publishes news releases in XML format. The ABN Newswire service then assembles the news release by retrieving from the storage medium each of the stored sections in

a manner consistent with the desired format. The ABN Newswire system provides, to a promoter of the news release, feedback information that is responsive to the news release. That is, in response to distributing a news release, the ABN Newswire system provides feedback information in the form of reports that assess how a customer's news has been published in their chosen media.

15. Upon information and belief and in violation of 35 U.S.C. § 271(a), Defendant has infringed and continues to infringe one or more claims of the '390 Patent by making, using, providing, offering to sell, and selling (directly or through intermediaries), in this district and elsewhere in the United States, a method for structured generation of a news release, as described via their websites <http://www.abnnewswire.com> and <http://www.abnnewswire.net>.

16. More specifically, for purposes of the '390 Patent, the ABN Newswire service receives specified content of each of a plurality of pre-determined sections of the news release, the predetermined sections and their ordering determining in part a desired format for the news release. The ABN Newswire service allows for the creation of electronic news releases and electronic press kits that are formatted to have a plurality of sections such as Header, Body, Contacts, About Company, Links, and the like. The ABN Newswire service stores, in a digital storage medium, the content specified for each of the sections. Generally, the ABN Newswire service creates and publishes news releases in XML format. The ABN Newswire service then assembles the news release by retrieving from the storage medium each of the stored sections in a manner consistent with the desired format. More specifically, the ABN Newswire system is advertised as being able to "publish and distribute press and media information" to include, but

not limited to “webcasting and live streaming technology.” Finally, the ABN Newswire system then distributes the press release to investors and media outlets worldwide.

17. To the extent such notice may be required, Defendant received actual notice of its infringement of the Patents-In-Suit at least as early as the filing of the original complaint in this action, pursuant to 35 U.S.C. § 287(a).

18. Defendant's aforesaid activities have been, intentional, without authority and/or license from Plaintiff.

19. Plaintiff is entitled to recover from the Defendant the damages sustained by Plaintiff as a result of the Defendant's wrongful acts in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

20. Defendant's infringement of Plaintiff's exclusive rights under the Patents-In-Suit will continue to damage Plaintiff, causing irreparable harm for which there is no adequate remedy at law, unless enjoined by this Court.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff Alcorn Communications LLC respectfully requests that this Court enter judgment against Defendant ABN Newswire LLC as follows:

- A. An adjudication that Defendant has infringed the Patents-In-Suit;
- B. An award of damages to be paid by Defendant adequate to compensate Plaintiff for its past infringement and any continuing or future infringement up until the date such judgment is entered, including interest, costs, and disbursements as justified under 35 U.S.C. § 284 and, if necessary to adequately compensate

Plaintiff for Defendant's infringement, an accounting of all infringing sales including, but not limited to, those sales not presented at trial;

- C. A declaration that this case is exceptional under 35 U.S.C. § 285;
- D. An award to Plaintiff of its attorney fees, costs, and expenses incurred in prosecuting this action; and
